STUNTS

1. Extended stunts are limited to both feet in the base(s) hands at all times. Both of the top person's feet must be held throughout the entire transition to/from the extended position. Exception: Straight bump-down dismounts are allowed as part of a pyramid dismount.
2. Single leg stunts may not be held or pass through an extended position.
3. Twisting stunt transitions are limited to a ½ twist. Exception: A single full twisting log/barrel roll is allowed as long as it starts and ends in a cradle position, does not involve any skill other than the twist, and is not assisted by and/or connected to another top person.
4. All release moves must land in a cradle.
5. The only stunt inversions allowed are:
 - a) Transitions from ground level inversions *up* to non-inverted positions. Example: Legal: Going from a handstand on the ground to a non-inverted stunt such as a shoulder sit is allowed. Example: Illegal: Going from a cradle *down* to a handstand or from a prone position to a forward roll.
 - b) Suspended forward rolls where two people on the performing surface control the top person in a suspended forward roll with continuous hand-to-hand contact to a stunt, two person cradle, loading position, or the performing surface. If caught in a cradle, load, or stunt, the new catchers must be in a place and may not be involved in any other skill when the suspended forward roll is initiated. During the roll, the feet of the top person must be released.

PYRAMIDS

1. All single leg extended stunts must be braced by two top persons at prep level or lower. The braced connection must be established at prep level or lower before the stunt passes into the extended level, and constant contact between the top person and the bracers must be maintained while the top person is on one leg above prep level.
2. Any time a top person is released by bases during a pyramid transition, the top person must be braced by two top persons at prep level or below with hand-arm connection only and constant contact between the top person and the bracers must be maintained throughout the transition.
3. Twisting pyramid transitions are limited to a ½ twist.
4. Pyramid inversions are not allowed.

DISMOUNTS

Only straight pop downs/bump downs, basic straight cradles and ¼ turn dismounts are allowed. All other dismounts are prohibited. “Dismount” is defined as the movement of a top person from a stunt and/or pyramid to a cradle position or to the performing surface.
